- 8. Abstract (Max. 200 words) Stop Superbug formation

The main concern in today's world is development of Super-bugs. Superbugs showing resistance to all antibiotics with impact on human health. Phages solely kill selectively targeted bacteria. Therefore the most common biological form of phages is a most effective agent to destroy the superbugs.

9. Declaration

(Name) Shouti Ramesh Parjane hereby declare that, the research project entitled Exploitation of Bacteriophages to stop Superbug formation is my own contribution and is not submitted to any other competition as on (date) 1. We will abide with all the decisions / changes made by Avishkar, SRTM University committee, 2023.

Exploration of Bacteriophage to stop Superbug formation

what are bacteriophages?

- Bacteriophages are the viruses that infect bacteria
- Their replication is host – dependent
- Highly specific to bacteria
- They may be lytic or lysogenic
- It was discovered by Frederick Twort and Felix d'Horelle in 1917.
- They are abundant everywhere – on land, in water, within any form of life.

What are superbugs?

- Strains of bacteria which are resistant to most of the antibiotics. Ex: Resistant bacteria that can cause pneumonia, urinary tract infection and skin infections, etc.
- According to latest reports from WHO, incidence of antibiotic-resistant bacterial infections is increasing worldwide.
- Millions of people are expected to die from antibiotic resistant diseases every year.
- So, we can use bacteriophages as a therapy to stop superbug formation.
- This therapy is known as "Phage Therapy".

Phage Therapy-

- Due to their specific ability to kill bacteria only lytic bacteriophages are used to treat bacterial infections.
- Phages in practice are applied orally, topically on infected wounds or spread onto surfaces or used during surgical procedures.
- Examples- 1. Phage T4- *Propionibacterium acnes*.
2. T4 Phage- *E. coli*.

Advantages of Phage Therapy-

- Specificity in Action.
- Easy Administration.
- Effect limited to the site of infection.
- Less expensive.
- Works against superbugs.
- Can be used alone or with antibiotic.
- They multiply and increase in number, so only one dose is needed.
- Slightly disturb good bacteria in body.
- Natural and easy to find and rapid isolation.
- Not harmful to human body.

PRINCIPAL

Shri Guru Buddhiswami Mahavidyalaya
Purna (Jn.) Dist. Parbhani

- Nontoxic to animals, plants, and environment.
- Cover gram-positive and gram-negative bacteria.
- Low risk of phage resistance.

Successful Treatments-

1. Phages were used successfully at Yale university by Benjamin Chan to treat a *Pseudomonas* infection in 2016.
2. To treat patients with MDR *Acinetobacter baumannii* in Thornton Hospital at UC San Diego in 2017.
3. To treat patients of cystic fibrosis.
4. To treat chest infection due to *Pseudomonas aeruginosa*.

Herbs for Healthy Life

Introduction:

It is quite evident that people have grown more prone to Allopathic medicine, which makes use of chemicals. Consumption of such medicines in excess or for a longer period will lead to hazardous health problems. Ayurveda, the indigenous method of treatment with medicinal herbs, on the other hand, has failed to provide an alternative, owing to poor research in the field. Basic research is needed to use herbs for living a healthy life. Marathwada region is rich in the herbs having medicinal value which can be used, if not as an alternative medicine, as a preventive drug. The common medicinal plants selected for the present study are *Asparagus officinalis* L., *Aloe vera* (L.) Burm. f., *Cymbopogon citrates* (DC.) Stapf., *Caralluma adscendens* (Roxb.) R. Br., *Bryophyllum pinnatum* (Lam.) Oken, *Psoralea corylifolia* L., *Dalichundrone falcata*, *Leonotis nepetifolia* (L.) R. Br., *Helicteres isora* L. *Crotalaria verrucosa* L.

The present work aims to disseminate knowledge of the medicinal plants easily available in the surroundings to the community and to educate people on the simple and easy ways to prevent diseases with the help of medicinal herbs.

STUDIES OF SOME ETHNO MEDICINAL PLANTS OF PARBHANI DISTRICT IN MAHARASHTRA

During the present work preliminary survey of the tribal villages and towns of Parbhani District for ethnomedicinal studies of some rare plants like *Acacia catechu* Willd.; *Andrographis paniculata* (Burm.f.)Wall; *Gloriosa superba* L.; *Helicterus isora* L.; *Plumbago zeylanica* L.; *Semecarpus anacardium* L.; *Tinospora cordifolia* (Willd) Miers. and *Withania somnifera* (L.) Dunal. of the **Mahur Hills** have been carried out. These plants are very important as they are being used by traditional herbal vendors for curing so many ailments. But due to lack of scientific knowledge and exploitation of these plants randomly, the plant species have become rare. Conservation of these plants is the need of the hour.

Project Name:- Touchless Handwashing Machine With Automatic Gateway

Touchless Handwashing Machine हेमाकट मध्येपाहलेच उपलब्धपरंतुमी त्या machine ला योग्य पतीने काही नवीन innovation कडेन develop केलेआहे,या मी केलेल्या innovation मुळे मानवी जीवनास खूप फायदे होतील.

सगळ्यांत पाहलेआपण हेउपकरण जास्तीत जास्त हॉटेल्स मध्येवापरलेजाईल,या नश्याय banks,hotels,function halls,malls यामध्येसुद्धा वापर करता येईल,परंतुयाचा योग्यआण सुरक्षित वापर हा हॉटेल्स मध्येयेणारे,हॉटेल्स स्टाफ members,आण इतर लोकसाठ. हॉटेल्स.उपकरणे।व्ययक माहित ही गो जाणून घेणेखूप गरजेचेआहेकारण हा वापरशुभ,उपकरणआहेजेक, मानवी जीवनासाठ. खूप लाभदायक ठरणारआहे. तर या उपकरणात काय होईल, Hospital मध्ये ICU समोर मध्ये मध्ये मध्ये ICU मध्येजाणाऱ्या admit room समोर अचानक त्याला install कर. त्यानंतर त्या admit room मध्ये मध्ये मध्ये ICU मध्येजाणाऱ्या मध्येक मला हात धुवून मध्येक-नच्यात जावेलागेल.अशी काही यणा यतआहे.

एखादा ICU मध्ये मध्ये admit room मध्येवेश करे इत असेल तर त्याला त्या उपकरणे मधून sanitizer मध्ये liquid handwash थ्यावेलागेल. जसे त्यांनी हात धुतलेक, लगेच 4 second साठ, वेश दार उघडेलआण ती यात मध्येवेश कर-शकेल. आण Admit room मधून बाहेर पडण्यासाठ, सुद्धा असेच करणेना असेल यामुळे मणआणआपण्या मधील संपकापुढरंयान झालेलेजंतूची पसरण कमीत कमी होईल अचानक त्यापासून सुरक्षित राआण संसगमजेंय रोग संसगमहीत्यापासून टाकता येईल.
